

de novo designs: weak experimental specificity (all IC<1 bit) vs TFScope prediction

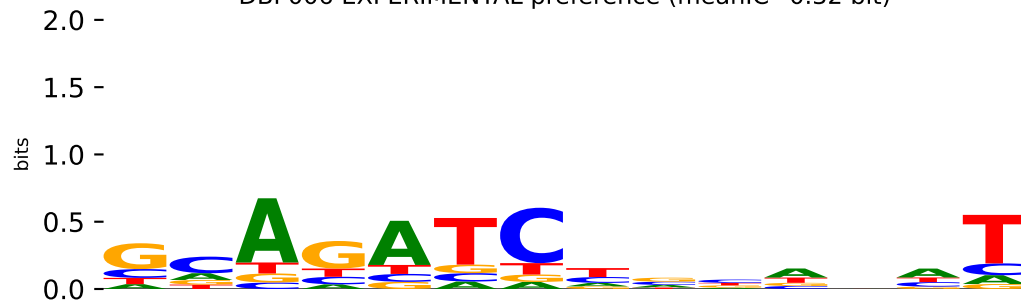

DBP005 EXPERIMENTAL preference (meanIC=0.30 bit)

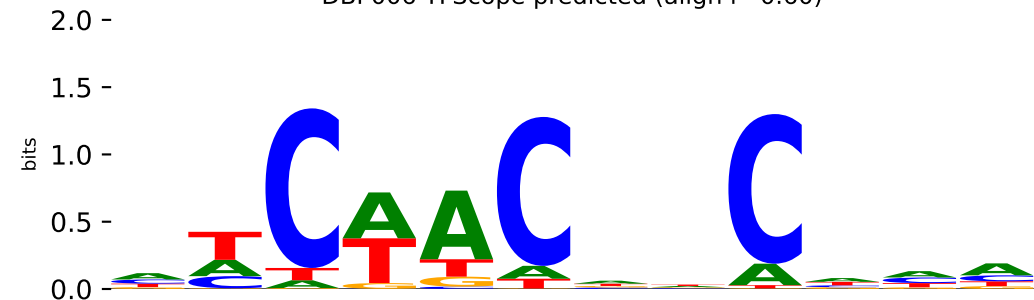

DBP005 TFScope predicted (align r=0.34 RC)

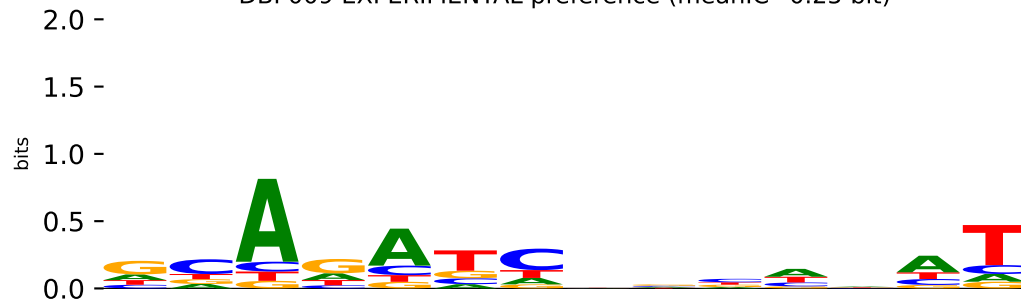

DBP006 EXPERIMENTAL preference (meanIC=0.32 bit)

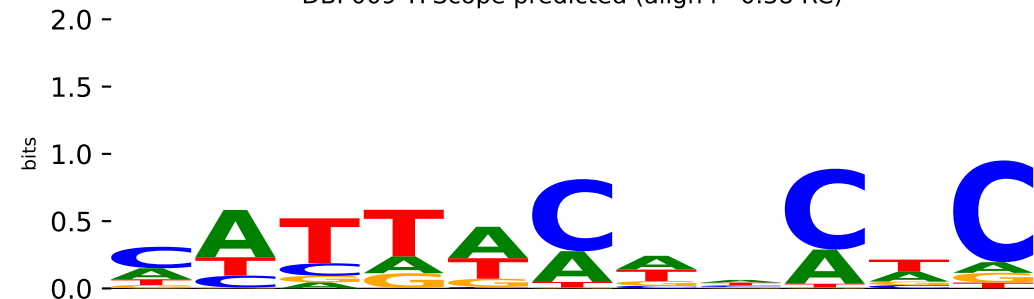

DBP006 TFScope predicted (align r=0.60)

DBP009 EXPERIMENTAL preference (meanIC=0.25 bit)

DBP009 TFScope predicted (align r=0.38 RC)

DBP035 EXPERIMENTAL preference (meanIC=0.32 bit)

DBP035 TFScope predicted (align r=0.38)
